DATE _____

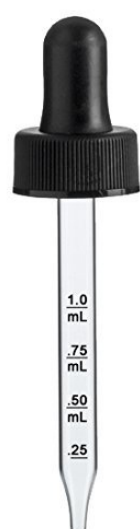

RECOMMENDED USE OF PCR PLANT OIL PRODUCTS*

WELLNESS CLIENT NAME _____

Amount of body fat, duration and severity of condition, GI/Liver function, certain medications, and individual biochemical and ECS makeup will affect therapeutic outcome. (Dustin Sulak, DO)

*NOTE: Hold serving under the tongue for 2 – 3 minutes before swallowing for enhanced absorption.

Product	Strength	Lot #	Instructions

Recommended Use*: Shake well before each use. Place under the tongue, hold for at least 60 seconds[†], and then swallow. Keep at room temperature to preserve freshness. Store away from humidity, heat, and light. Do not refrigerate. If any adverse reactions occur, discontinue use of dietary supplement and consult your doctor. CBD (Cannabidiol) is a natural constituent of hemp oil. Expiration date is two years from manufacture date and is noted on bottom of product.

General Serving Guidelines: Start LOW & Go SLOW!

There is no magic number, no formula, and no test to determine how “out of balance” you are. The good news is we have a great method to finding your “happy place” or “optimal dose.” We call this process micro-servings. Many people need less CBD than they think they do and more is not always better. By starting low and slowly increasing until you find your personal perfect balance you may get optimal benefits without wasting money on excess CBD.

Potential Minimal Side Effects - Temporary headache, potential feelings similar to dizziness, and fatigue.

ATTENTION: Some medications may interact or impact serving size. Please call 412-586-4678 or 412-421-4996 to speak to a Pharmacist about any medications you are taking.

WARNING: KEEP OUT OF REACH OF CHILDREN. CONSULT YOUR HEALTHCARE PROVIDER BEFORE TAKING IF YOU ARE PREGNANT OR NURSING, OR HAVE ANY OTHER MEDICAL CONCERNS.

**FDA DISCLAIMER: This product has not been evaluated by the FDA. It is not intended to treat, diagnose, cure or prevent any disease. Always consult your physician when changing any recommended treatments or medication dosages.*
